

GEN. CREMER IS INJURED.

Officer and Staff Hurt by Explosion of a Mine.

PARK, Sept. 28.—Gen. Cremer was seriously wounded at the factory camp while watching operations with explosives. He and his staff officers were hurled some distance when a mine was exploded accidentally.

One of Gen. Cremer's thighs was broken and he was badly burned.

That Bright Boy

of yours might be even brighter if he were not handicapped by defective vision.

Now that another hard year's school work has begun, you should be certain that your child's eyes are normal.

Many a bright child would develop more rapidly and with less effort if it were not for eye-strain.

Many a seemingly dull child could match wits with "bright" pupils if aided by proper glasses.

Our Oculists (Registered Physicians) will make an examination of your child's eyes and advise whether or not glasses—either temporary or permanent—are necessary.

The examination does not oblige you to purchase. Harris Glasses cost \$2 or more.

\$500,000,000 LOAN
TERMS IN LINE WITH
BRITISH EXPECTATIONS

Bankers Feel Advantage Rests
With Americans, but Eng-
land Also Reaps Benefit.

LONDON, Sept. 28.—The definite announcement of the terms on which the Anglo-French loan is to be issued in the United States was about in line with the expectations of British financiers. Although the yield is a shade lighter than had been looked for originally in some quarters, the general opinion is that heroic measures were necessary to remove the deadlock in exchange transactions which had been allowed to continue for so long.

It is felt here that the advantage rests with America in obtaining such a good rate of interest and facilities for the export trade, although England also reaps benefit by the postponement for at least five years of payment of the debt for goods owed.

The question of exchange is now of first importance. Belief is expressed in banking and exchange circles that further measures will be necessary to bring the rate more nearly to a normal figure. It is known that a good deal of money is being held for remittance as soon as cable transfers reach \$40.

Gold is still going out and will continue to go in payment of munitions. The loan now arranged will cancel part of the adverse trade balance, but in view of the coming shipments of cotton and grain, which will swell this balance, persons in close touch with the exchange situation here are of the opinion that further action will be necessary. At the same time the slow but gradual improvement of the British export trade and a reduction in the importation of luxuries as a result of the newly arranged tariff schedule will help the situation.

Makes Second Effort to Kill Wife.
Ambrose Erdelyi of No. 129 First Avenue, who was sent to Sing Sing in August, 1912, for shooting his wife, was arraigned in Yorkville Court today charged with trying to shoot her again. Magistrate Krotel sent him back to finish his original term, which runs until May, 1916.

SUBMERGED DERELICT
BELIEVED TO BE CAUSE
OF WRECK OF ISABEL

Steamboat Ashore in Sound
May Be Saved—Crew on
Board in No Danger.

STAMFORD, Conn., Sept. 28.—The steamer Isabel of the Norfolk Steamship Company, which carries excursion parties from New York to Rockaway Beach in the summer but was recently put on the Norfolk-New York line, lies on the rocks of the Clow's Reef, off Shippen Point, near here, exposed to destruction by the first heavy storm from the southeast on east. She was bound up Long Island Sound last night at 7 o'clock and was in supposedly deep water a half-mile south of Cow Buoy when she struck what is thought to have been a submerged derelict and was so badly stove in that Capt. George H. Rowland ran her on the rocks.

When the steamer struck the reef Second Engineer George Brown and six members of the crew took to a lifeboat and came ashore, where they reported that the ship had sunk and that the captain and fourteen members of the crew must be floating around the Sound some place.

It was soon discovered that the vessel was safe for the time being and that the crew, which was thought to have been missing, was busy carrying freight on deck to save it from damage by the water in the hold. The tugboat Addie B. was sent to remove the freight from the damaged steamer. Anning J. Smith, President of the company, is of the opinion that the vessel may be saved, and he has gone to New York to make arrangements for the salvage work.

In the local office of the Norfolk Steamship Company it was stated to-day that the steamer Cimbric, in charge of Capt. Elmer Sherman, had been sent from Greenwich, Conn., to the point where the Isabel is on the rocks. Sherman reported that there was no immediate danger of the Isabel breaking up, and he then proceeded to South Norwalk to get the cargo which the Isabel was to have brought here.

The Isabel is 155 feet long, has a gross tonnage of 421, and is valued at \$40,000.

Would Stop Wife From Getting His Money.

Four savings banks jointly with Mrs. Joanna Theodosia Davidson were named defendants to-day in a suit brought in the Supreme Court by Alexander Davidson to regain possession of his bank account and to prevent Mrs. Davidson, from whom he has been separated since 1911, from withdrawing the accounts. The banks are the Greenwich Savings, West Side Savings, Bank of Savings and Seamen's Bank. In these he has deposited about \$1,000 before the separation came. Upon leaving his home, Mr. Davidson alleges, his wife took the pass books with her. From the West Side Bank, he claims, she has already withdrawn \$2,400, and he asks the court to compel the bank to replenish his account and pay no more to Mrs. Davidson.

\$64,806 JUDGMENT.

Settlement Got That Sum Awarded
Against Patrick Cathone.

Judgment for \$64,806 against Patrick Cathone, railroad engineer and fireman, and in favor of Edward M. Brennan, millwright's mine owner and shipping agent, and his wife, Charlotte, was today recorded in the County Clerk's office. Cathone sued the Brennans for \$100,000 in a counter-suit, but failed to defend the action brought against him.

The papers allege that in August of last year Cathone made two promissory notes giving 1,000 acres of land in Fort Laramie, S. D., and rights to a gold mine in Ouray, Col., as security. When the notes fell due and Cathone failed to pay, suit was brought. He promptly counter-sued, alleging that the Brennans obtained the property he had given as security by deliberately neglecting to pay certain instalments on the property. As a result, he alleges, all his interest has been lost.

Man Killed in Roma Cafe Identified.
Gabriele M. Peral, thirty-two years old, a coach driver, has been identified as the man killed by a shot fired during a fight in the Roma Cafe, No. 125 Mulberry Street, yesterday. Salvatore Tufano of No. 258 Elizabeth Street made the identification to-day.

WELSH MINERS' NEW STRIKE.

Twenty-Four Hundred Protest Em-
ployment of Non-Union Men.

CARDIFF, Sept. 28.—Two thousand miners in the Aberdare district and 400 at Duffryn went on strike to-day, protesting against the employment of non-union men. They expected generous remuneration to counter with the colliery owners.
